## PROFILE SUMMARY

Detail-oriented Associate Software Engineer with expertise in full-stack development using Django, Flutter, and MERN stack. Experienced in building scalable web and mobile applications, real-time systems, and delivering optimized, user-focused solutions meeting client requirements. Actively seeking roles in **Full-Stack Development, Frontend Engineering, or Mobile App Development**, with a strong interest in crafting interactive UIs, real-time applications, and user-centric software solutions.

## TECHNICAL SKILLS

**Programming Languages:** Python, JavaScript, Dart, SQL, NoSQL  
**Technologies:** React.js, Flutter, HTML, CSS, Node.js, Express.js, Django,  
**Databases:** MongoDB, MySQL, Database Design, CRUD Operations  
**Tools:** Git, GitHub, VS Code, PyCharm, Android Studio  
**Operating Systems:** Windows, Linux, Ubuntu

## PROFESSIONAL EXPERIENCE

### Smartclik

Nov 2024 – Present

Associate Software Engineer

Belagavi, India

- Developed a **full-stack admin panel** using **Django REST Framework** for backend APIs and **Flutter Web** for the frontend, enabling seamless management of users, services, and approvals
- Implemented **versioning system** for Flutter application, ensuring structured release management and deployment workflow
- Developed cross-platform service application using **Django** and **Flutter**, serving active users with seamless user experience
- Designed and developed **modern, responsive UIs** using Flutter, improving usability and visual consistency across applications
- Collaborated with cross-functional teams to deliver high-quality software solutions meeting client requirements

## EDUCATION

### Bapuji Institute of Engineering & Technology

Feb 2023 – Sep 2024

Master of Computer Applications (MCA) – CGPA: **8.8/10**

Davangere, India

### P C Jabin Science College

July 2019 – Sep 2022

Bachelor of Science (B.Sc.) – CGPA: **7.8/10**

Hubballi, India

## TECHNICAL PROJECTS

### Real-time Chat Application | React, Node.js, Express.js, MongoDB, Socket.io, Tailwind CSS | [Live](#)

Aug 2024

- Engineered full-stack chat application using **MERN Stack**, supporting 100+ concurrent users with 99.9% uptime
- Implemented real-time messaging functionality with **Socket.io**, achieving low-latency communication
- Developed responsive UI with Tailwind CSS, increasing user engagement by **30%** across mobile and desktop platforms
- Integrated **Cloudinary** for optimized media storage and file upload management

### Streamify - Video Streaming Platform | React, Node.js, Express.js, MongoDB, GetStream.io | [Live](#)

Jan 2025

- Built community-driven learning platform with integrated video streaming using GetStream.io API
- Designed dynamic UI components with Tailwind CSS and DaisyUI, reducing page load time by **25%**
- Implemented secure user authentication system with multi-role access control, reducing unauthorized access

### Fitness Tracking App | Flutter, Firebase, Provider

Jul 2025

- Built a cross-platform fitness tracking app including real-time step, calorie, and activity tracking
- Implemented workout planner and progress dashboards with interactive charts to help users achieve fitness goals
